REPORT REVOLUTION AT MOSCOW

German Troops May Be Sent There Soon Despite Provisions of Peace Treaty

(By the Associated Press.)

Continuing their aggressive defense in the face of the impending German offensive along the western battle front, the French have once more attacked the enemy southwest of Soissons. Launching their blow from the eastern side of the Retz forest, north of Long Pont, the French have advanced over a front of approximately two miles, taking Chavigny farm and the slopes to the north and south of it. Several hundred prisoners were captured by the French in their sudden attack.

This assault may be linked closely with the recent offensive operations at St. Pierre Aigle and gives the French a new front line from Long Pont north as far as the southern limits of Amblemy, a distance of almost eight miles.

Australians Straighten Line

Australian troops holding positions astride the Somme river east of Amiens and north of Hamel have swept the Germans back over a front of over a mile and straightened out an awkward angle held by the Germans since the Australians and Americans carried their lines forward in their spirited attack on July 4.

Berlin mentions local attacks in the Elzonne sector, which is held by Americans, and between the Marne and Rheims.

Italian forces operating on the extreme left wing of the Allied line in Albania struck hard at Austrian positions along the Vojussa (Vojussa) river which flows in the Adriatic about 20 miles north of Avlona, one of the most important towns in southern Albania. Vienna admits that the Austrians "advanced post has been withdrawn to their main positions." This report from the Austrian headquarters probably refers to the action mentioned in the French official statement on Sunday night. It was said by the war office at Paris that French and Italian forces have seized heights in western Albania and had held them against counter attacks.

Although the movement is as yet not fully developed, it may be that a serious offensive operation had been initiated there. Italian naval vessels would be able to cooperate with the land forces and if the line is pushed back a very great distance, a relocation of the enemy line running over the mountains into Macedonia might be necessary. The fighting north of Avlona has been going on for at least three days, which indicates that it may be more than a mere local action.

Report Revolution at Moscow

Events are moving very rapidly in Russia since the assassination of Count von Mirbach, the German ambassador at Moscow. Rumors of a counter revolution at Moscow come from various sources, but other dispatches say the uprising has been crushed, and several hundred of the revolutionists are under arrest.

Germany seems on the eve of releasing the Brest-Litovsk peace treaty in the "scrap of paper" category. There are indications that German troops may be sent to Moscow in the near future. There are large Teutonic forces within 300 miles of Moscow and it is reported that they are being heavily reinforced. Dispatches say that Emperor William has forbidden the German foreign office to participate in any way with the Russian revolutionaries, and the stage appears to be set for a new act in the drama that is being played on what was formerly the eastern theatre of the war.

There is a threat of a new offensive from Italy, this time directed from the Trentino, an earnest through by large Austrian forces led by German shock troops sent to that sector of

Submarine Sinks Neutral Ship in Mid-Atlantic

An Atlantic port, July 8.—Another neutral ship, the Norwegian steamer Augvald, 2,698 tons, bound from a French port for Baltimore, has fallen victim of a German submarine. A trans-Atlantic liner, in port today, brought the news of the sinking of the Augvald in mid-ocean on June 22, and also landed 11 members of the crew of 27 men. Three of the crew were drowned and the remaining 12 are unaccounted for.

The rescued men were picked up by the liner after having drifted helplessly for 11 days, some subsisting most of that time on sea weeds and rain water wrung from their clothing or caught in their caps. They were in an exhausted condition when picked up, but by careful nursing on board the liner, they had fairly recovered when they reached here.

According to members of the crew who told their stories in fragments over the side of the liner when she docked, the sea wolves adopted the same methods as used by the U-boats in their recent operations off the Atlantic coast. The steamer was stopped by shell fire, the crew ordered into two boats and the ship then sunk with bombs.

WASHINGTON SILENT ON COURSE OF ACTION PLANNED IN RUSSIA

President and British Ambassador in Conference At White House For Hour Yesterday—Official News Lacking

Washington, D. C., July 8.—Absolute silence was observed among high officials and diplomats today concerning the new policy toward Russia to which the United States government has agreed. There were intimations that a statement from the White House was under consideration but it could not be established that this was likely to be forthcoming in the immediate future. The feeling grew that details of the lines of operation to be pursued under the plans discussed at the White House conference Saturday had not been worked out and that even when this had been done silence might be expected for a time because of the possibility of jeopardizing the program by permitting official information of its nature to reach Germany.

British Ambassador Sees Wilson. The attitude which the Entente allies and the Americans should adopt in dealing with Russia has been discussed from so many angles in the press that one official remarked today an announcement that might be made or any actual operations revealing its nature could not come as a surprise to the public.

A conference at the White House during the day lasting an hour between President Wilson and the British ambassador was immediately connected with the Russian situation, which it is known is the subject of active exchanges between the Entente capitals and Washington. It was assumed that the ambassador called to hear the conclusion reached Saturday when the President went over the question with the state war and navy secretaries and the chief military and naval officers.

Among observers generally now in the government's confidence the consensus of opinion is that positive action is to be taken either at Vladivostok or at Kola on the Arctic ocean or perhaps in both places to give aid to any element in Russia or Siberia that is ready to offer armed resistance to the Germans.

Nothing has been heard from Ambassador Francis for two weeks. He last reported from Vologda. The state department has no apprehension for his safety, though it is certain that his wire communication has been cut off by the Bolsheviks. The situation as to the American consulate at Moscow, practically the only agency through which the state department is holding any communication with the Bolshevik government, is even worse, as no word has been received from that quarter since June 18.

Though still lacking official confirmation of the reported assassination of the German ambassador at Moscow, the officials here have accepted the report as accurate and are speculating interestingly as to the probable effect of this tragedy. Generally the idea seems to be it would be beneficial to the allies, as tending to hasten the crisis in the relations between Russia and Germany. Should the latter resume the war upon Russia as a punitive measure, it is believed that it would instantly determine the vast majority of the Russian people to call for Allied assistance and bring Russia into the field against Germany.

gun nest. The Italians had to make night attacks, swimming with a knife in their teeth, until they surprised and killed the machine gun defenders. The artillery of both sides played night and day freely upon every road built in between the canals. The result of the battle gave the Italians nearly 49 square miles of new territory and a shorter front.

James H. Morrison, a New York actor, who is working in an American Red Cross canteen is feeding 3,000 wounded Italians daily and has not slept in the past seven days. He said: "One night the Austrian artillery mistook the American Red Cross villa for the Mezzetta railway station and bombarded it severely. They injured the wounded men and destroyed the station in our villa."

The word "American" seems to act as a charm with the common soldier. For instance, in the course of one night when there was heavy shelling, an Italian captain kept up the courage of a group of reserves by saying each time a shell fell: "The Americans are coming over faster than that."

ONLY HARD FIGHTING SUNDAY SAVED VENICE

Only After 20,000 Austrians Were Killed Was City Out of Grave Danger

(By the Associated Press.)

Italian army headquarters, Sunday, July 7.—Venice's liberation by the expulsion of the Austro-Hungarians from the delta of the Piave river was attended by some of the hardest fighting seen on this front. The Austrians put up a terrible resistance, and it is estimated that 20,000 officers and men, or 50 per cent of their effectives, were killed or taken prisoners. The enemy employed all formations, among which were elements of the celebrated "storm" corps originally prepared for operation in Palestine for the purpose of holding Jerusalem. How serious was the menace of Venice is indicated by the fact that Austrian guns were only five miles away. Sandbags were piled up along the coast where the ground is solid enough to support cannon if the Austrians had been able to advance them.

It was due to the untiring valor of the navy's gunboats and sailors and soldiers fighting neck deep in mud, water and reeds that the Austrian tanking movement was blocked. The fighting was especially arduous on the hundreds of canals behind the lagoon district where every canal was had been transformed into a machine

STATE ENDS O'LEARY CASE TODAY

Counsel for Defense Will be Called to Stand Despite His Protests.

New York, July 8.—With the calling of Thomas E. Felder, counsel for the defense to the witness stand, the state will close tomorrow its case against John J. O'Leary, accused of aiding in the flight from justice of his brother, Jeremiah A. O'Leary, who is under indictment for conspiracy to commit treason.

Despite his protests, Colonel Felder will be sworn as a witness for the prosecution, and will be questioned about his knowledge of the conferences of the O'Leary brothers before Jeremiah started on the journey which culminated in his arrest at Sara, Washington. Witnesses today, chief among them Arthur Lyons, who was employed in Jeremiah O'Leary's law office, reiterated testimony given at the first trial.

ANTI-HEARST FEELING AMONG THE DEMOCRATS

Up-State Committee Meets At Syracuse Today to Discuss Gubernatorial Material

Syracuse, July 8.—Out of a mass of gossip and rumor preliminary to the meeting tomorrow of the committee of 42 up-state New York Democrats who are to suggest possible gubernatorial material to the Democratic convention at Saratoga later in the month, only one fact seems to have filtered tonight. That was the announcement of William H. Kelly of Syracuse, the chairman, that the committee tomorrow certainly would not limit the recommendations to one candidate.

Another feature of the gathering time of the delegates was the announcement of Charles F. Rattigan, collector of the port of Rochester and former warden of Auburn state prison, that he was vigorously opposed to any movement that might have for its object the nomination of William Randolph Hearst. Mr. Rattigan was the first committeeman found who would consent to being quoted as voicing anti-Hearst sentiment.

Mr. Hearst's probable relation to the Democratic situation this fall was one of the foremost topics of conversation among the early arrivals. This was occasioned by the published announcement earlier in the day which the steering committee of seven apparently considered worthy of credence, but which later turned out to be unauthorized, that Mr. Hearst had definitely decided to enter the primaries. When traced to its source this announcement was found to have been made by a representative of one of Mr. Hearst's papers, who tonight said he had only told the committee—and that informally—that he had been told by friends of Mr. Hearst that the publisher would seek the nomination.

About 20 delegates had arrived tonight. The meeting time of the committee is set for 11 a. m. tomorrow, when it is expected a full representation will be present.

Among the possible candidates mentioned freely about the headquarters were James W. Gerard, former ambassador to Germany; Mayor Harry C. Walker of Binghamton; Congressman George R. Lunn of Schenectady; Charles E. Tremien of Ithaca, former state superintendent of public works; Charles A. Hitchcock of Syracuse, a prominent central New York attorney; Alfred E. Smith, president of the New York city board of aldermen; and Oliver C. Cabana, a wealthy stock man of Buffalo.

ALLIED RULERS SEND WISHES TO AMERICA

Warm Sentiment and Appreciation of Our War Efforts Expressed in Messages

Washington, D. C., July 8.—Warm sentiment for America and appreciation of its efforts in the war for world freedom are expressed in Independence day messages to President Wilson from President Poincare of France, King Albert of Belgium, King Emmanuel of Italy, King Alexander of Greece, President Menocal of Cuba, and Premier Venizelos of Greece. The messages with the President's reply were made public today at the state department.

President Poincare said that the French and American people in communion of thought will remember the fight that won liberty for America and hoped for the forthcoming victory which will secure for the world a just peace. President Wilson in reply said it was fitting that the anniversary of American Independence day should witness the fraternity of free peoples in the cause of national self-determination.

King Albert thanked the American people for their efforts to ameliorate the suffering of his stricken people and expressed his admiration for the bravery of American troops on the battle fields of France.

King Emmanuel said, in entering the world war the American people have notably kept faith with the supreme ideal which we proclaim with their independence, while the King of Greece said America's participation in the war constitutes all the more valuable a factor in the Allied struggle, as it has for its sole aim the defense of the rights of oppressed

ARREST OFFICER OF N. Y. MAIL FOR DEALS WITH HUNS

Vice-President and the Treasurer of Paper Held For Perjury

ACTED FOR GERMANY

Dr. Rumely Purchased Metropolitan Newspaper With Teuton Money

WORKED UNDER VON BERNSTORFF

The Berlin Government Secured Cashier Checks and Paid \$1,361,000 to Rumely

New York, July 8.—Dr. Edward A. Rumely, vice president and treasurer of the Mail and Express company, publishers of the New York Evening Mail, was arrested here tonight in the office of Attorney General Lewis charged with perjury in a report to A. Mitchell Palmer, alien property custodian.

The warrant was issued by a federal commissioner upon the complaint of Attorney General Lewis, who had been conducting an investigation for some time into the affairs of the Mail.

The attorney general charged that Rumely purchased the stock of the Mail and Express company in June, 1915, from Henry L. Stoddard, and that in doing so he acted on behalf of the Imperial German government. The complaint against Dr. Rumely charges that in making a report to the alien property custodian regarding the transaction he failed to disclose his relations with Count von Bernstorff, German ambassador to the United States, and Dr. Heinrich F. Albert, commercial attache of the German embassy.

The attorney general charged that the German government paid to Rumely in several transactions in connection with the purchase of The Mail \$1,361,000. The payments, it is alleged, were concealed until their details were discovered by investigators for the department of justice and the New York state attorney general.

Rumely Paid \$1,361,000.

In an announcement tonight on the arrest of Dr. Rumely, Attorney General Lewis declared that the money was paid to Rumely from deposits of the German government standing in the name of Dr. Albert, or of Albert and von Bernstorff jointly in this city. The total so far traced, he added, is \$1,361,000.

The transfer of money Mr. Lewis said was concealed in this manner: "Albert procured various banks where the German government had accounts to issue cashier checks to the order of one, Walter Lyon, a member of the former Wall Street firm of Renskorff, Lyon and company. This firm in turn paid the money over to Rumely or to the S. S. McClure Newspaper corporation, which had been organized by Rumely for the purpose of this transaction. In some cases, Albert drew the money in cash and delivered it to the attorney of the embassy, Messrs. Hays, Kufman and Lindheim, who took the cash to Renskorff, Lyon and company. They in turn made payment to Rumely. In one transaction, \$75,000 in bills was handled in this manner. Rumely then drew his note to the order of Walter Lyon, covering the transfers in money and pledged stock in the S. S. McClure Newspaper corporation to secure the loans.

Concealed His Connections.

"Dr. Rumely in his report to the alien property custodian made no disclosure of his relations with Albert or von Bernstorff or the Imperial German government. Instead he reported that he owed \$100,000 to Herman Stiebelken, now deceased, upon a note, and he also reported that the note which he had given Renskorff, Lyon and company, accompanied by a pledge of the stock of the S. S. McClure Newspaper corporation, had been surrendered to him in exchange for the \$100,000 note in September, 1917. In other words, by giving his note for \$100,000 he had obtained a return of notes aggregating in excess of \$1,300,000 and stock representing a controlling interest in the Evening Mail.

"Rumely had claimed recently that it was Stiebelken who put up the money in the transaction. Previously, he had stated Mrs. Busch had contributed to the fund. Mrs. Busch, however, denies this, and the Columbia Trust company, executor of Herman Stiebelken as well as Mr. Stiebelken's partners in the firm of Crossman & Stiebelken, state that so far as they know Stiebelken had nothing to do with the transaction."

The bond holders of the Mail and Express company will take possession of the Evening Mail tomorrow morning and "we will see to it that the true Americanism for which we stand will be reflected in the columns of the paper," said Henry L. Stoddard, president of the company, in a statement tonight.

Dr. Rumely was committed to the Tombs by United States Commissioner E. Hitchcock. Bail will be fixed tomorrow.

E. A. WHEATMORE CLOSES HIS CASE

Distinguished Lawyer and Educator Dies—Career Brought Him Renown in Patent Litigation.

New York, July 8.—Edward A. Wheatmore, distinguished lawyer and educator and who had been counsel in many important litigations in the United States during the past 50 years, died today. Mr. Wheatmore was at one time president of the American Bar association and for many years an overseer of Harvard university, serving between 1899 and 1902. He was educated at Harvard, from which he graduated in 1859, and received his legal education at Columbia, Yale, Hamilton college and his alma mater conferred degrees of L. L. D. upon him.

The bar association of New York, the Harvard University, and Republican clubs of New York, and the general society of the Sons of the Revolution honored him at various times with the presidency of their organizations. He was born in Utica, June 2, 1824.

GREAT TRIBUTE FOR MAJ. MITCHELL

Officials of Foreign Countries, Gotham, State and Nation Mourn Dead Man

FUNERAL AT CATHEDRAL

Flowers Will Be Dropped on Long Cortege From Twenty Airplanes

New York, July 8.—Representatives of foreign countries will join with the city, state and nation in paying tribute for three days to the memory of Major John Purroy Mitchell, former mayor of New York, who fell to death from an airplane at Gerstner field, La., last Saturday.

While hosts of friends and admirers with many civic organizations were pleading today for a place in the funeral cortege next Thursday, a telegram was received here from Lieutenant General G. T. M. Bridges, head of the British mission in the United States, asking that the British army be permitted to send representatives.

Finally it was announced that the church of St. Francis Xavier would not accommodate all those who desired to attend the funeral and that the services would be held instead at St. Patrick's cathedral which has an estimated capacity of 4,000.

After Robert Adamson, former fire commissioner, one of those making the civic arrangements conferred with Colonel William A. Simpson who is in charge of the military program, the revised plans for the funeral were announced. They include the strewing of flowers from 20 airplanes which will fly over the cortege.

When the body of Major Mitchell arrives here early tomorrow it will be met by Mrs. James Mitchell, his mother, and escorted by a military guard of honor, will be taken to Mrs. Mitchell's home. There it will remain until Wednesday afternoon.

From late Wednesday afternoon until Thursday morning it will lie in state in the rotunda of the city hall where rested the bodies of Presidents Lincoln and Grant and Mayor Gaynor. A military guard will be on duty day and night.

When the funeral procession forms Thursday, there will be in line an infantry battalion from Governor's Island, a company of blue jackets, three regiments of the New York state guard, aviators, firemen, policemen and officiating clergy.

Following the coffin will come Governor Charles S. Whitman and Mayor John F. Hylan, delegations from various civic bodies and Brig. Gen. William A. White and Lieutenant General Bridges of the British army and their staffs.

U. S. SOCIALISTS IN ENGLAND

Hold Long Conferences With British Socialists—Find Sentiment Favors Wilson's Aims.

London, England, July 8.—The committee of pro-war socialists from the United States which arrived in London on Tuesday last comprising John Spargo, Alexander Howard of Kansas; A. M. Simons, of Wisconsin; and Louis Kopelman, completed today a long series of conferences with leading socialists and prominent labor men of England, including Henry M. Hyndman, leader of the British socialists, James Ramsey MacDonald and George Lansbury.

"We found general enthusiastic support on all sides of President Wilson's war aims sentiments, even among the so-called pacific sections," said Mr. Simons.

The party will remain in England another week, proceeding then to France and Italy.

U. S. LEASES BIG HOTEL

Long Beach, July 8.—The Nassau hotel, a hostelry which for ten years has been a center of summer social activity here, has been leased by the government it was learned here today. Although no definite announcement was made, it was said that the building would be converted into a hospital for convalescents. The hotel accommodates 1,600 persons.

WIRE CONTROL BATTLE WAGED IN THE SENATE

Administration Wins, Then Loses Parliamentary Advantage

NO DECISION REACHED

Both Factions Prepare For Renewal of Fight on Floor This Morning

TO INVESTIGATE THE SITUATION

Resolution Was Reported Out of Interstate Commerce Committee By 4 to 3 Vote

Washington, D. C., July 8.—Efforts of the administration to secure immediate disposal by the senate of the house resolutions authorizing the president to take over telephone, telegraph, cable and radio systems during the war stirred up a bitter fight today in the upper house in which the administration won and then lost a parliamentary advantage.

The resolution was buffeted back and forth between the senate interstate commerce committee and the senate floor in a stormy controversy over the question of holding hearings or hastening senate debate on a vote. No decision was reached or progress made and both factions prepared for renewal of the struggle tomorrow.

Reconvening after defeat in the house last Saturday of their summer vacation program, Senators today almost immediately took up the wire control resolution with leaders planning to expedite the senate's action as requested by President Wilson.

At a special meeting late today the interstate commerce committee with little discussion and by a vote of 4 to 3 decided to dispense with hearings on the resolution and ordered it reported to the senate without amendment or recommendation. The attempt of Chairman Smith to report the resolution caused an uproar of protest in the senate. After a heated debate, Senator Hitchcock of Nebraska, presiding temporarily, sustained a point of order that a majority of the committee and not of committeemen present must order a measure reported and rejected the report, returning the resolution to the committee. Senator Smith vigorously protested, declaring his committee had acted in perfect good faith and in accordance with universal senate committee customs.

Will Push Their Fight.

Administration leaders promised tonight to renew the fight tomorrow to avoid extended committee hearings while the opposition also promised as insistent a demand for thorough investigation of all questions connected with the legislation. The administration is expected to throw its support to a resolution introduced today by Senator Smith of Georgia, democrat, proposing to have the resolution returned immediately from the committee to the senate and discharging the committee from further consideration of it. Senator Smith said tonight he could not state whether another meeting of the commerce committee would be called immediately further to consider the resolution.

Senator Pomerene called at the White House today and assured President Wilson that the legislation would be expedited as fast as possible, but insisted that good faith required testimony from witnesses during the debates today, however, it developed that Chairman Smith had not received requests for hearings from the companies affected by the resolution.

Orders calling off the threatened strike of Western Union telegraphers set for today was advanced in senate debate as a reason to proceed deliberately. Several senators presented telegrams from operators repudiating the strike call, while Senator Poin-dexter, of Washington suggested an inquiry into the influence brought to bear upon the operators for "disloyal and unpatriotic" action.

DRAFT EVADERS FIGHT.

Little Rock, Ark., July 8.—The telephone operator at Heber Springs late this afternoon said that fighting was taking place in the hills between alleged draft evaders, a detachment of national army soldiers, a company of the Arkansas National guard and sheriffs possees from three counties. The operator said the sound of firing had been heard in the town all the afternoon.

No report has been received here tonight of the engagement. At noon, according to the telephone operator the evaders were reported fleeing and setting fire to the woods so the smoke would conceal their movements. The possees were said to be in close pursuit.

COTTON PRICES REDUCED.

Washington, D. C., July 8.—Prices for cotton products showing reductions of from 20 to 30 per cent as compared with quoted market prices were approved today by President Wilson. The prices were agreed upon at conferences between the price fixing committee of the war industries board and a committee representing cotton goods manufacturers.

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, July 8.—Apart from last Sunday's severe contraction of excess reserves by local banks and more definite intimations concerning new capital requirements by railroads and industrial corporations, events over the week-end offered no explanation for today's dull and heavy stock market.

Foreign news was reassuring in the main, and domestic developments were unchanged except for sporadic labor troubles and firmer monetary tendencies especially in time funds.

With scarcely an exception leading shares were under persistent pressure, the selling again focusing about United States steel, which offered an extreme recession of 2½ points. Kindred issues yielding sympathy, and rails also were reactionary, dividend payers losing 1 to 1½.

Among the several speculative groups, Samatra tobacco experienced a gross set back of 7 points and general motors 6 with 3 for United cigars and 1 to 2½ for metals and oils. Included among the heavy miscellaneous issues were Central leather, industrial alcohol, DuSables and Interboro consolidated preferred.

Lowest quotations were registered in the last hour but toward the close specialties rallied 1 to 3 points and equipments, including United States steel and Republic iron recovering substantial fractions, who more preferred was relatively strong. Sales amounted to 410,000 shares.

Traffic at western and far western points diminished during the week, but the general business situation was more favorable on further solution of war problems. Liberty bonds were more heavy, other issues ending slightly. Total sales, far value, aggregated \$4,177,000.

United States bonds old issues were unchanged on call.

Camel Driver an Ishmaelite.

In China camel drivers are Ishmaelites who have little or nothing to do with their fellows. Through the twelve months of the year they live and sleep in the open and in this life they secure brown skins, bulk of muscle and sinew and a taciturnity which repels advances. Nine months of the year they are on the road, following the long, faint trails that lead to such places as Ugra, Ulassat, Kucheng, Karkul, S. peng and Dauran. They never sleep under roofs, but carry their own tents and bedding, food and water and camp wherever there is free grazing.

Where Elder Ducks Abound.

Elder ducks are numerous everywhere in Norway. Being the producers of the valuable eiderdown, a staple article of trade in Norway, they are regularly protected by law, and are consequently so tame as in many places to appropriate a domestic fowl. Lobsters in particular suffer severely from their devastations.

That Ancient Feeling.

Bobbie—"I feel like the oldest man in the world." Stobbs—"What are you talking about? You are not a day over thirty." Bobbie—"Yes, but I've just been listening to a boy of sixteen tell about things he used to do when he was a kid."

"WAR BRIDES" DUPE SOLDIERS

Women Fortune Hunters Arrested for Having More Husbands Than Law Allows.

San Diego, Cal.—Almost since the United States entered the war soldiers have been victims of women fortune hunters. Girls at various camps are being arrested charged with having an over quota of soldier husbands, and in every case the question of insurance was the motive.

This city has been no exception to the rule, and with the thousands of soldiers and sailors in training at the camps near by federal officials are always on the alert, and as a result two girls are under arrest. They gave their names as Miss Mae Smith and Mrs. Elsie Byrnes, and both are pretty. They were caught in the act of mailing about 20 letters to sailors and soldiers asking for money for clothes and traveling expenses. In every letter written by the girls was the phrase: "I wish you could see me with a kiss on the top of every wave." The girls also received 15 letters from ardent lovers and each letter contained money.

When Water Fails.

Water will not always put out a fire. This applies particularly to a fire where grease is present in quantities. A technical paper cites an instance where a fire in the oil box of an engine was spread over a large radius when water was thrown upon it. The water scattered the grease in all directions, and some of it was caught up by a flywheel, spreading the burning grease over the building. In a few minutes the whole plant was burning.

Fine Cotton Crop.

New Orleans, La.—Reports from practically every section of the South indicate the yield of cotton will be heavy this season. The staple selling at around 30 cents a pound in the seedling season stimulated planting notwithstanding the fact that in many localities a plea was made for the planting of more food and feed crops.

SOLDIER FINDS HE IS

PALLBEARER TO BROTHER

Learns Identity When Chaplain Reads Name During Funeral Services in France.

One of the most pathetic instances of the war, so far as America is concerned, occurred in a little cemetery to the rear of the Picardy front recently when an American soldier acting as a pallbearer at the funeral of several American dead discovered his own brother, Joseph Ash, among the dead. The brothers, members of different companies, had met only the day before at the front. Joseph remained there and was mortally wounded that night, dying soon afterward. His brother was ordered to the rear lines with a party of woodchoppers.

The woodchoppers were working near the cemetery at the time of the funeral and the chaplain asked them to be pallbearers. In the midst of the services the chaplain read the name of Joseph Ash. The brother, who stood with bared head in the small group of soldier mourners, reeled forward, his eyes filled with tears, and he exclaimed, "My brother! Oh, my brother!"

The chaplain, not understanding, stepped up and placed his arm around the young man's shoulder, saying, "We are all brothers, my boy." The soldier looked at the coffin and shook his head.

"The Germans will pay for your blood, Joe," he said, and then it was that the chaplain and the others around him understood and they led him away.

Match for the Polar Bear.

The only animal in the arctic regions that can successfully fight the polar bear is the walrus. The bears will attack the baby walrus, but are afraid of the long, sharp, ivory tusks of the grown-ups.

OLD RAILWAY IS DISMANTLED

Rails Once Used for Carrying Freight in Mine District are Sold for Junk.

Bedding, Cal.—The railroad from Cefargo on the Southern Pacific to the Quartz Hill mine on the east side of the river, near the Old Diggins, four and one-half miles long, has been sold as old junk by the Mammoth Copper Company of Kennett which built it in 1907 at a cost of \$200,000. The mine was shut down in 1913, for then the Mammoth Copper company was able to get the fixing ore at a better profit elsewhere. The bridge across the river, made of steel, is 700 feet long.

The wrecking company bought the railroad steel, ties, bunkers, trestles and bridge. Acetylene gas will be used to cut down the steel bridge.

The railroad was in active service for seven years. The Mammoth company took 70,000 tons of ore from the Quartz Hill mine in a single year and made use of 300,000 tons of ore in all.

The Quartz Hill mine, a great body of low grade quartz, is owned by a company composed of Polish interests in Chicago. The Pope was said to be a large stockholder.

Daily Thought.

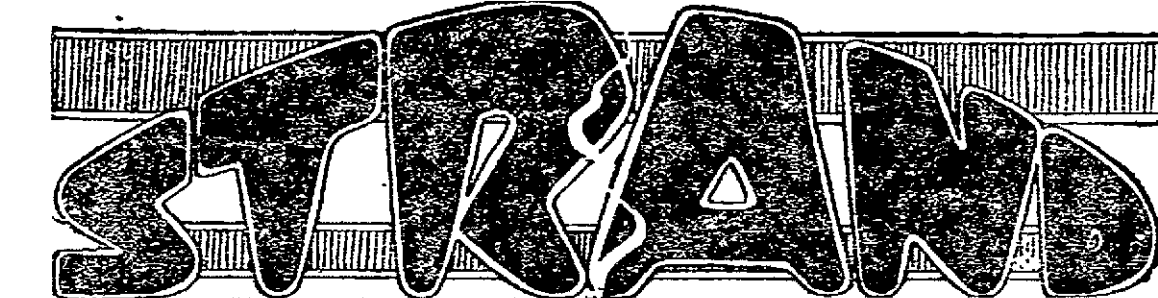

Life is a struggle, but not a warfare; it is a day's labor, but labor on God's earth, under the sun and stars with other laborers, where we may think and sing and rejoice as we work.—John Burroughs.

Matinee 2:30-10c NO ADVANCE IN ADMISSON Evening 7:15-9-15c

"THE SOUL OF BUDDHA" is the greatest modern society drama in which THEDA BARA has appeared since "A FOOL THERE WAS."

Miss Bara takes the part of a half cast EAST INDIAN girl, who, night after night, dances for the populace. The scene then shifts to Paris where the former dancing girl falls in love with a handsome English officer and forsakes her Buddha-oath. At this particular part of the story, some of the most wonderful acting ever projected on the screen is done by Miss Bara in the Apache quarter.

Refreshments were served and a social time enjoyed.

I. O. O. F. Installation.

Last Saturday evening the installation ceremonies of I. O. O. F., No. 271, were conducted by District Deputy Valder Tipple of Schenectady. The following are the chief officers:

N. G.—W. W. Winter.
Vice N. G.—Charles Hitchcock.
Past N. G.—Clifford Brown.
Light refreshments were served.

Leaves for Baltimore.

Shirley Wright left last Friday for Baltimore, where he has a position for the summer in the park.

Purchases Maxwell.

Daniel Mickle purchased July 4 a Maxwell touring car of Dorr Gardner. Ray Jenks is also driving a new Maxwell.

Missionary Meeting Postponed.

The missionary meeting announced for last week will be held this week Wednesday at the home of Mr. and Mrs. D. C. Talbot at Lena. Dinner will be served at 12 o'clock.

Dr. Backus Locates Here.

Dr. H. W. Backus of Buffalo has bought the property of Drs. B. I. and B. H. Talbot on South street; also their business and practice. He takes possession Aug. 1 and will be cordially welcomed.

Undergoes Operation.

Mrs. E. Shipman, who recently moved from Syracuse to the Eaton farm about a mile north of this village, underwent an operation for appendicitis at her home last Wednesday. Dr. M. L. Lacher of Oneonta performed the operation, assisted by Dr. Schoellkopf. She is reported as improving.

Personal Notes.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear soft and white the skin becomes. Yes! It is harmless.

Starke Chase over Sunday. — Mrs. Anna Wright of Shell Rock, Iowa, has arrived in town and will spend some time at the home of Mrs. Davis Barnes.

Notice to the Public

All residents and union men of Oneonta especially should beware of the unfair barber shops. Reasonable hours and fair wages should have the hearty support of all fair minded men. There are only five union barber shops in the city at present as follows: Louis Thurston, George Reynolds, A. H. Ingerham, Guy Barber shop and L. H. Hochkiss. Give them your patronage. advt 5t

DUTCH BOY LIQUID LEAD

Paint Now with this convenient all-lead paint

The newest form of the oldest paint—made of pure white-lead, ready for the painter's brush. Gives a weather-proof, elastic coat which wears down slowly and evenly—no dangerous or costly burning off necessary when a new coat is applied.

Dutch Boy Flat Wall Paint is convenient, ready-mixed white-lead for interior walls. The painter using this material produces a soft, dull-finished surface, which washes like porcelain. Easily tinted any color you want.

LATEST NOTE AND COMMENT

Fuel Administrator Gardner has given notice that the householder must go slow in the coming winter in the matter of fuel consumption, or go without any whatever. Each citizen will be allowed enough for comfortable temperature, which the government puts at 68 degrees. If more is used it is up to the consumer, and no favoritism will be shown. And while small orders, that is under six tons, will be filled by local dealers for the winter, a signed statement must go with it as to the amount used a year ago, which cannot in any case be exceeded, and above a certain figure, only a percentage will at this time be allowed to be ordered.

All this sounds well, and is certainly in line with that economy which in all lines is being urged. Everybody should conserve coal, and this applies more to householders than to anybody else. In fact factories and business places generally may be trusted to do this, since they are run for profit, and naturally no coal will be wasted. But there is no doubt that many American homes are heated above the needed degree for comfort, and that more rooms are heated every day than there is need of. On the other hand, if the present cold weather is to continue through the summer, many families will have the winter supply much depleted before winter arrives.

The German press calls the peace terms of President Wilson indistinct and vague. There is no reason why they should be so regarded. They were carefully formulated, clearly stated and doubly defined, and there should be no doubt on the part of the people of Germany as to what he means. Unfortunately, however, the German people are not given the terms themselves but merely synopses of them "made in Germany" and expressly for German consumption.

Out in Ohio the pastor of a German church made the funeral of an American soldier whose body was brought home for burial the occasion for a sermon inciting insubordination in the military and naval forces. He has been arrested and four indictments found. Apparently the funeral was preached over the wrong person.

In the assassination of Count von Mirbach, German ambassador at Moscow, the Kaiser has a pretext ready at hand for the further invasion of Russia on the part of the Huns. And no doubt that invasion will come provided there are German soldiers to spare for the work, now that the condition in the west every day looms more threatening.

Colonel Lynch, Irish member of parliament from West Clare, appeals to Colonel Roosevelt to come to Ireland and assist in a recruiting campaign. It is a suggestion which the colonel may think well of. He has wanted from the first to get into the fighting, and next to fighting itself he would be at home in the work which Colonel Lynch desires. Moreover, his natural and untrammelled eloquence would doubtless be effective among people given as much as the ex-president himself to oratory. If any man could bring the Irish blood to fighting pitch for the Allies, Roosevelt could do it.

The desertion of German aviators is a significant thing as regards a growing sentiment of the people. Other people are hemmed in too closely by the aviators can get out of the country—and they do. Nobody has heard of an aviator of the Allies deserting to Germany.

A Free Scholarship

Any young man or woman who is a bona fide patron of this paper may secure free instructions in music or elocution.

The Ithaca Conservatory of music, with the desire to stimulate the study of these arts, offers two scholarships to applicants from each congressional district of the State of New York, valued at \$100 each and good for the term of seventeen weeks beginning with the opening of the school year, September 24, 1918, in any of the following departments: Voice, violin, piano, elocution and public school music. These scholarships are awarded upon competition which is open to anyone desiring a musical or literary education. Anyone wishing to enter the competition or desiring information should write to George C. Williams, secretary of the Ithaca Conservatory of music, Ithaca, N. Y., before September 1, 1918.

One of the violin scholarships last year went to Ursula Beach of Oneonta, and a piano scholarship to Miss Gertrude Hitt of Oneonta.

Supper at Cooperstown Junction

Colliers, July 8.—The Ladies Aid society of the Methodist Episcopal church of Cooperstown Junction will hold a supper and ice cream sale at the home of Mrs. William Stanton Wednesday evening, July 10. There will be a musical program rendered.

COMMENTS OF THE PRESS

Germany's Terms of Peace

Count Roon speaks for the Pan-Germans in response to Dr. Kuehlmann's proposal of a peace by negotiation. The Count says that the Allies may have peace if Great Britain will turn over her navy to Germany, Gibraltar to Spain, the Suez canal to Turkey, that Germany must keep Belgium and part of France, and that France, Great Britain and the United States must among them pay an indemnity of at least \$45,000,000,000. Beyond that he is willing to trust to the charity and honesty of the enemy to see that Germany is not harshly treated. The Pan-Germans, whose attitude and present aspirations Count Roon so clearly explains, control the German government today.

The German armies are fighting for those material achievements which Count Roon specifies today. The triumph of the German armies in France would mean the immediate payment in full of Count Roon's demands plus what more the Germans had power to take.

Our best millions are in France none too soon.—[Syracuse Post-Standard.]

Bargains

"So you got some bargains?" "Yes, Charley, dear," exclaimed young Mrs. Torkins. "I found several things whose price has increased only 200 or 250 per cent in the past week."—[Washington Star.]

No Reason for a Change

Lord Northcliffe is probably correct that America alone could defeat Germany but at this stage there's no use in allowing a little well-placed flattery to change a program that's giving everybody a chance.—[Pittsburgh Dispatch.]

The Embarrassment of Pockets

Cutting down the number of men's pockets won't entail much hardship on the average man, who has for a number of years past been experiencing a greatly reduced necessity for this character of storage space.—[Philadelphia Inquirer.]

Worth Fighting For

The recollection that the Allies are fighting a nation that misses no opportunity to bomb a hospital or torpedo a hospital ship, killing doctors and nurses and attendants who are engaged in works of mercy, ought to nerve every man's arm with new vigor, and send every honest bullet straight to its mark.—[Utica Observer.]

The American Spirit

Secretary Baker reports that it has become necessary in France to change the army designation heretofore known as "service of the rear" to "service of supply," because most American soldiers objected to having any relations with the rear, no matter how important it might be. This does not mean an immediate movement on Berlin, but it shows what may be called the tendency.—[Exchange.]

Lest-Majesty in Germany

Herr Ballin has been scathingly referred to by the German "Vorwaerts" as "the money-grubbing manager of the Hamburg-American Line," and further charged with "indulging in the rage of the incarnate capitalist." Another indication that all is not amity and adoration behind the Prussian lines.—[Atlanta Constitution.]

An Acturnal Nightmare

If it is true that the young son of Nicholas is to be hoisted to the Russian throne his elevation will not tend to raise his status as an insurance risk.—[Atlanta Constitution.]

An Appropriate Honor

An honor appropriately bestowed by Secretary Daniels was giving the name of Tillman to one of the new destroyers. The late Senator was not a seafaring man, but for many years as member and finally as chairman of the senate committee on naval affairs he was always in favor of a big navy. The memory of a civilian and landsman is thus to be cherished in a great company of heroic sailors.—[New York World.]

Government Orders Newspaper Economies

The War Industries Board at Washington, D. C., has sent the following letter to all newspaper publishers:

On account of the shortage of materials the question of the supply of paper is becoming acute and the use of paper must be economized to the greatest possible extent.

It is necessary that all newspapers which publish a daily and weekly edition put the following preliminary economies into effect July 15, 1918:

Discontinue the acceptance of the return of unsold copies.

Discontinue the use of all samples or free promotional copies.

Discontinue giving copies to anybody except for office-working copies or where required by statute law in the case of official advertising.

Discontinue giving free copies to advertisers, except not more than one copy each for checking purposes.

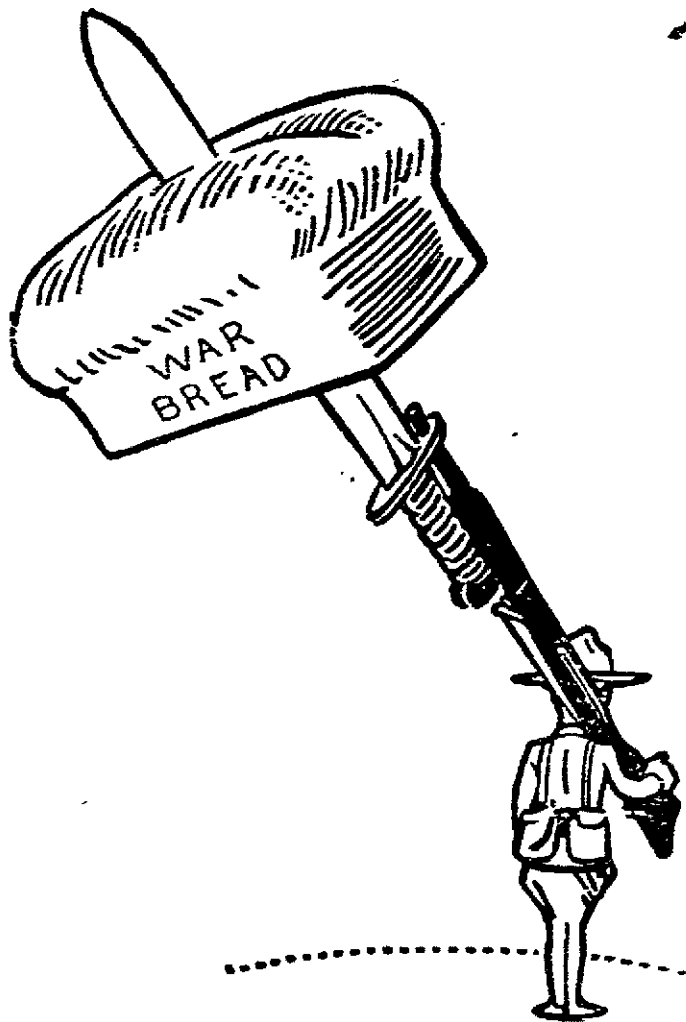

Discontinue the ordinary forcing of copies on news dealers (i. e., compelling them to buy more copies than they can legitimately sell in order to hold certain territories).

Discontinue the buying back of papers at either wholesale or retail selling price from dealers or agents, in order to secure preferential representation.

Discontinue the payment of salaries or commission to agents, dealers or newsmen for the purpose of securing the equivalent of return privileges.

Discontinue all free exchanges.

THE WAR GARDENER ANSWERS

BREAD and Bayonets BEAT the Boche

This is the opinion of war gardeners of the United States who have, according to reports received by the National War Garden commission, jumped the number of war gardens 40 per cent over those in 1917. The war gardeners are eligible to compete for the ten thousand dollars in Thrift Stamps the commission at Washington is offering for the best canned vegetables grown in war gardens.

LETTERS FROM SOLDIER BOYS

Interesting Communications Received from Otsego County Men with the Colors Here and Abroad.

The following letter has been received by the parents of Samuel Shupfers, who is private with Company G, 107th U. S. Infantry, A. E. F., in France:

Dear Father and Mother:

It has been some time since I have written to you. We left our last camp in America about 8 o'clock in the morning. The first call was at 4:15 a. m. It was an early hour, but we didn't mind because we knew we were going to take the trip we had long looked forward to. We had a good time coming over here. We had to hike a few miles after leaving the boat. Our packs were awfully heavy with all our equipment. The first night after we arrived here we were welcomed with an air raid. The French seemed to mind it more than we did, for we were all anxious to see what it was like. We have had several raids, but none have had any effect. For the last three nights everything has been very quiet.

It is very hard to make the French people understand, because only a few can talk French. There are lots of English soldiers here and they seem very friendly. They tell us lots of interesting stories of the war and of the trenches. We are having good eats and a good place in which to sleep, so we have no fault to find. This is a great country! I don't believe I ever felt better in my life. All our mail has to be read before leaving here, and the officers have their hands full, so we don't write much. Give my love to all the friends at home.

From 101st Field Bakery.

The following has been received from a member of the Field bakery company of Capt. Millard:

The men of the 101st Field bakery, stationed at Camp Stuart, are enjoying their long stay. We are quartered in wooden barracks, two stories high, with windows and doors screened to keep out the flies and mosquitoes, which make them very comfortable at night in which too sleep. The men are all in the best of health and spend all their spare time on the beach, which is close to the barracks, watching the large boats which come in and out of the port where we also get the cool breezes that come off the salt water.

About a week ago we moved to block 11, which is near the north end of the camp on the main street leading to the main gate. The men all felt downhearted to move from their beautiful site on the water front where they could look at Norfolk, across the bay, but we make the best of it.

The men have drill every morning for three hours which, however, they enjoy. They usually are given the afternoon off duty, which is spent going about the camp. The only work that is not liked is that of kitchen police. George Thomas is known as the happiest man in camp. Last night we were entertained by several boxing bouts and a band concert by the 10th artillery band. Tonight we are anticipating a musical treat which will be provided by Private Wright and Private Herring. Private Alger and Leubendorfer keep the men cheered with their musical instruments.

SUNDAY MAIL CAR ON T. & D.

Railway Mail Service Resumed July 7 for Summer Months.

With the resumption of the complete summer schedule on the Ulster and Delaware railroad, there will be a mail car attached to one outgoing and one incoming train daily. A railway mail clerk will be on the train and mail each way will be delivered at Oneonta, Stamford, Grand Gorge, Roxbury, Arkville, Fleischmanns, Highmount, Phoenixia and Mt. Pleasant. Mail for Oneonta will arrive at 11:25 a. m., and the mail south-bound closes at the post office at 12:20 p. m., giving about three hours earlier Sunday service to New York than can be had on Sunday via Albany.

This is merely a resumption of a summer service which has been effective for several years and will doubtless be dropped at the close of the summer outing season in the Catskills.

In this connection, and as an example of what a postal employee with a real head for the service can do, it is told that a year ago a man dropped a letter which he was anxious to have reach Oneonta at the earliest possible moment into the Stamford office a few minutes after the Sunday mail had left for Oneonta. The mail clerk routed the letter to Albany, then to Herkimer, and over the trolley on Monday morning to Oneonta, reaching this city about three hours earlier than if it had been held in Stamford and sent direct.

LOCAL MENTION.

Shipments of small trout for vicinity streams were received by local sportsmen on Saturday and again yesterday. They were mostly placed in the tributaries of the Ouleur and the Orego creeks.

The government report of the Wilber National Bank appears in another column and presents its usual strong showing. It is worth the time of anyone who has any financial business to transact, to read this report carefully.

The annual harvest of the hay crop on the fair grounds was commenced yesterday, which is a reminder that the dates of the fair are approaching. The fair privileges are going rapidly and applications should be made at once before they are disposed of.

The Richards property on Lower Chestnut street, sold on Saturday to close the estate, was purchased by William Richards, a son. The personal property was also sold and brought good prices. W. P. Abbott was the auctioneer. The real property was struck off at \$3,560. The bulk of the land had previously been sold for development.

MANY AT SUMMER SCHOOL.

Fully Four Hundred and Fifty Now Enrolled for Regular Work.

The summer school at the Oneonta State Normal building opened yesterday morning with a much larger attendance than was anticipated. The total registrations is about 450, and others are expected during the week which will swell the total to a figure approximating 500. Owing to war, labor and economic conditions, a large attendance had not been expected, and so fine a registration is naturally gratifying to the managers and instructors of the summer school.

In addition to the above there are about 125 children enrolled in the grades. Work in all departments of the school began with regular sessions and recitations yesterday.

NINE MEN RECLASSIFIED.

Probably About 40 Men Will Be Changed by Local Board.

At a meeting of the Local Board last evening nine registrants were reclassified. Ralph H. Banner was changed from Class 3 to Class 1 on dependency and Charles E. Codington from Class 4 to Class 1. Their farm claims will keep them both in Class 4.

Leo H. Brewster and Ray H. VanWoert were reclassified from Class 3 into Class 1, and Daniel M. Rose, George M. Simmons, Harold I. Tabor and Edwin Grant from Class 4 to Class 1. Jay S. Lawson was moved from Class 4 to Class 2.

MAY SOON BE IN ACTION

Believed That Oneonta Soldiers Are Many of Them Now in France and Near the Front Ready for Action.

While no authoritative announcement can be made, it may be accepted that there are good reasons for believing that former New York state Guardsmen, which included many of the men who went early from Oneonta and vicinity, will soon be in action in France. Letters received from former members of Company G, now with the 101st regiment, which arrived weeks ago in France, state that they are within sound of German guns, while nightly the hum of aircraft passing over back of the American lines are heard. In this command are Lieut. Royal C. Johnson and more than 50 of the men who went out with the company here, including numerous Cooperstown young men.

Then there are the men who are with Captain Keepers of Company G of the original First New York regiment, now forming the First United States Pioneer regiment. It is stated that they left Spartanburg, S. C., for a point on Long Island and it is not improbable that they left the United States some days ago, if not now already in France. It is believed that they may see active service quicker than some regiments which may have been in France longer, as they had received prolonged training in this country and were believed proficient and ready for service.

The 191st Field Bakery, of which Captain Jesse A. Millard is captain, has also, it is understood here, left Newport News some days since and sailed for overseas with a good probability that they, too, are safely in France or nearing the shores of that country.

While names of our boys have been missing from the list of the killed and wounded, causing much relief in this locality, it would not be surprising that soon we will have cause to know that they are in the midst of the fray and have been taking active part in staying the further progress of the Germans. While hoping for their safety, it may be well to steel ourselves for distressing news at no distant date.

FOOD CONSERVATION SPEAKER

Mrs. Beatrice Forbes Robertson Hale, Actress, to Address Audience at First Presbyterian Church Saturday Night.

Mrs. Beatrice Forbes Robertson Hale, author, lecturer and actress, and niece of Sir Johnston Forbes Robertson, the actor, will come to Oneonta, Saturday, July 13, to speak on "Winning the War."

Mrs. Hale, a woman of charming personality and a brilliant lecturer, is the author of "The Nest Builder," a novel which has had much favorable comment. She was born in New York city, September 11, 1883, the daughter of Jan and Gertrude F. Forbes Robertson, and was educated at St. Leonard's school, St. Andrews, Scotland, and Bedford college, University of London. Her marriage to Swinburn Hale, lawyer of New York city, took place in 1910.

At the age of 17 she made her debut on the stage at Manchester, England, under Sir Henry Irving in his revival of "Robespierre." In 1907 Mrs. Hale came to the United States with Ellen Terry and again in 1908 and 1909 under the direction of Charles Frohman. She was with the New Theatre company, New York, during its first season, 1910.

Mrs. Hale's career on the lecture platform has been largely devoted to poster, the drama and the woman's movement. She is a member of a number of prominent women's clubs in New York city.

Speaking of the United States Food administration, under whose direction she will come here, Mrs. Hale has been largely successful in getting the message of food conservation and its relation to the war across to many large meetings in her lecture "Winning the War." Mrs. Hale will give her address at 8 o'clock at the First Presbyterian church.

W. C. T. C. Picnic Wednesday.

The W. C. T. C. will hold a picnic on the lawn of Mrs. J. Clark, 7 Clinton street, Wednesday afternoon from 1 to 5 o'clock. All members and friends cordially invited. Gentlemen invited for 5 o'clock supper. Each member bring sandwiches enough for one and something in a covered dish. A good program will be given—music by Mrs. P. H. Briggs of Schenectady and select readings by Miss Lorena Babbitt.

Mothers' Club Picnic.

The Mothers' club will hold a picnic at Neah-wa park Wednesday afternoon, from 2 to 5 o'clock. Members bring fork, spoon, cup, plate and sandwiches for all members of family attending. If the weather is unfavorable the picnic will be held at the First Baptist church.

Prompt Package Delivery.

Small packages delivered promptly about the city between 8 a. m. and 6 p. m. Charge moderate, dependent upon distance. Phone G. A. Lee, Oneonta 5th market, 557-W, 8 Dietz street. Satisfaction promised.

SEEK TO SAVE 100,000 CHILDREN

Child Welfare Committee of Woman's Club Organizes Work in the City—Will First Weigh and Measure Infants.

While our men and women are so deeply interested in the task of providing for the war needs and caring for the men at the front the Children's bureau of the United States Department of labor is calling attention to the war-time needs of the children of the land. Its goal is to save the lives of at least 100,000 children under five years of age during the second year of the war. If this can be done it will save one-third of the 300,000 children under five years of age which are lost annually in this country. Authorities agree fully that at least one-half of that large number of deaths could be prevented if knowledge of the best modern methods of child care were accessible to all children and all parents. Thus war time work to save the lives of these children has resulted in this being called Children's year.

To organize and perfect plans for the work in this city for the summer, the Child Welfare committee of the Woman's club met with Mrs. E. J. Farley, its chairman, last evening. The work will be under the supervision of this committee and the city was arranged by districts with the wards the units. Committees were named to make a census of all children under the age named in the city. When this is completed the task next to be undertaken will be to weigh and measure all of the children which will be done under the direction of competent physicians and nurses. It is the intention of the welfare committee to assist the parents in every way possible in efforts to bring the children to a normal condition and save the lives of children who are in danger of early death because of lack of knowledge of the indifference of parents. If the club can assist the mothers here to save a part of the lives that otherwise would be sacrificed it will result in a better chance for life and health of every child in the state. This is one of the important duties of the hour.

Meeting with the Child Welfare committee of the Woman's club were Mrs. Kellogg of the Women's Council of National defence, which is interesting itself in this work and Miss Anna Sweeney chairman of the Child Welfare committee of the county, who has already organized the work in various places about the county with excellent results. In the city it is hoped that hearty co-operation will be extended in the work which the committee has undertaken and which is so important at this time. England and France have realized that work for better children and to save the lives of children is vital war work and they have succeeded in bringing down the death rate among children to the lowest point in their history.

TICKETS ARE IN DEMAND

Indications Encouraging That Chau-tauqua Tickets Will All Be Placed.

There has been an increased sale of tickets for the summer Chau-tauqua, which opens in the city on Monday, July 22, and continues for one week under the management of the Red-path company, since the announcement that the tent would be located on the old site on the Huntington plot on Church street. Many who have previously been in doubt about attending are securing tickets, recognizing that the program for the year is one of the best the company has ever offered. The committee in charge has distributed only 750 tickets and when these are disposed of no more will be sold at the special price of \$2. with a war tax of 20 cents to be paid on the opening day.

Tickets are on sale at the following business places: Henry Saunders' bookstore, R. W. Murdock's shoe store, the Citizens' National and the Wilber National banks, as well as by members of the committee, whose names were recently published. The time is rapidly approaching for the opening of the Chau-tauqua and those who have not secured tickets should do so at once.

THE THRICE-A-WEEK EDITION OF
THE NEW YORK WORLD
IN 1918

Practically a Daily at the Price of a Weekly. No Other Newspaper in the World Gives so Much at so Low a Price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields, and 1918 promises to be the most momentous year in the history of our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Daily Star together for one year for \$4.50.

The regular subscription price of the two papers is \$5.00.

Now Is the Best Time
of the Year to Have
Your Furnace or
Heater Cleaned

Your heater deteriorates fastest through rusting during the time the fire is out, if the soot and dirt accumulated during the winter is left in to draw and hold the dampness.

Besides, if you wait until during the fall rush when everybody is hurrying for the winter, we may not be able to give you the immediate service we would like to. This you will find true, especially if it should be necessary to order repairs to come from the manufacturers, as the service from all factories is so handicapped by the present conditions that they are absolutely undependable.

Leave your order with us at once, and thereby insure for yourself the care of your heater.

HOME ECONOMICS CLUBS

Consider Canning of Fruits and Vegetables—Talks on Wheat Substitutes.

There was a meeting of the Oneonta Home Economics club yesterday afternoon at the Domestic Science room at the Normal building. Miss Searles, assistant county demonstrator, had the meeting in charge and gave a demonstration of the canning of beet greens by the cold pack method; and of huckleberries by the steaming process. Following the demonstration and talk about canning, the necessity of which was urged, there was informal discussion of the personal experiences of the members in the use of substitutes for wheat flour in baking.

In the evening there was a meeting at the River street school, where practically the same program was carried out.

Today at 2:30 there will be a meeting at the Chestnut street school building, and this evening at 7:30 at the school building at East End.

All the ladies of the city, whether members of the club or not, are urged to attend these sessions.

WHEATLESS LOAF IS FOUND

Specialists of United States Food Administration Make a 100 Per Cent Substitute Bread.

Washington, D. C., July 8.—The wheatless loaf has been found. While the whole country has been seeking the 100 per cent wheat substitute yeast bread, a recipe has been developed in the experimental kitchen of the United States Department of Agriculture and the United States Food Administration that may mean the saving of millions of pounds of wheat flour before flour from the next harvest is available.

The recipe is soon to be published by the Office of Home Economics, United States Department of Agriculture, on a new food card which carries directions for making three new wheat substitute breads; the half wheat loaf, the one-fourth wheat loaf and the wheatless loaf.

The directions for making wheatless bread are as follows:

Bread Using No Wheat Flour.
All of these—1½ cups liquid, 1 tablespoon corn syrup, ¼ cake yeast, 2 tablespoons salt, 1 whole egg.

With one of these—¾ cups barley, 2½ cups ground rolled oats.

One of these—2½ cups corn flour, ¼ cups rice flour, 2½ cups sweet potato flour, 2½ cups (sifted) tapioca flour.

Make a sponge of the materials under 1 (except egg) and ½ of ingredients used from 2 and 3. Sponge should stand in warm place until very light, at least two hours. Work in balance of substitute mixture when sponge is light. Work in egg beaten slightly. Shape into loaf. Place in pan. Brush top of loaf with melted fat. Let rise to double bulk and bake in loaf pan in hot oven for one hour.

Eight Years Assistant Grand Lecturer.

Fred M. H. Jackson of this city received yesterday morning his certificate of appointment as Assistant Grand Lecturer for the Masonic Grand lodge of the state of New York. Screens Screens Screens

The pesky fly is with us once again and once he gets inside he'll stay. Meet him with a good door or window screen, keep him out. The sooner you get ready for them the fewer you will have.

We have a very satisfactory line of screen windows ranging in price from 45c to \$1.00 and doors of many sizes at prices from \$2.50 to \$3.75.

For those who merely need new wire on their screen doors we have the wire in widths to fit all doors. We will put it on for you, if you wish.

"BIG STICK" FOUND

Captain Thinks His Mast Will Be Largest Stepped.

What "Capt." Bob McIntosh says will be the longest mast of the same diameter stepped in a vessel in the United States is one selected to replace the foremast of the auxiliary schooner Margaret, which will be 23 inches in diameter at the deck, and at the top, 106 feet above the deck, the diameter is to be 28 inches. The exact length of the mast from the "step" will be 129 feet 10 inches. There were masts shipped by "Captain" McIntosh recently to South Africa that were 106 feet long, but of less diameter. The foremast now in place aboard the Margaret has a diameter of 26 inches and is the same length as the new one.

For two weeks a search was made for a stick from which the mast could be fashioned and when it was about concluded the only means would be to go into the timber and select one, the specimen now here was found in a log raft. It is at the St. Johns dry dock at Portland, Ore., and will be fashioned by hand.

WAR CHEST ACTIVITIES

Funds Appropriated for National Red Cross and Local Red Cross Work—Payments Should Be Made at Office in Municipal Building.

Oneonta's War Chest will keep the pace set by the territory about the city in contributing to the second Red Cross drive, the officers of the Chest being unanimous that Oneonta could not and should not do less than this territory, outside the city, did for its most war chest. Hence the recommendation of the special committee appointed by the scope of the Chest was adopted at a meeting of the officers of the Chest last night. Out of the funds there was voted to the Red Cross the sum of \$12,500, which is the exact amount required to equal the work of the outlying section. This will assure to the second Red Cross drive a dollar fund about 50 per cent of the subscription from Oneonta and the Oneonta district. Of this amount in accordance with the proposal of the National Red Cross directors 15 per cent of the sum raised may be retained for the work of the local chapter. This places to the credit of the Oneonta Red Cross something more than \$2,000, which amount is needed to meet the expenses for materials and the like for the months of June and July.

At the same meeting the committee to which had been referred the appeal of the Salvation Army for assistance in its work at army camps abroad reported in favor of granting that well established war relief work the sum of \$500 and the recommendation was accepted and adopted. The Army is doing an excellent work all authorities agree and the sum voted is as little as the city should give for this branch of work. There were also requests for \$150 from the Red Cross branch at West Oneonta and for \$100 from the branch at Emmons with which to buy material, and both requests having been referred to a committee which, after two weeks' investigation, reported favorably, the respective sums were voted.

Payments to the fund which are needed to meet the requirements of the Red Cross and other war activities should be made at the office of the War Chest in the room adjacent to the office of the city chamberlain in the Municipal building. There the records are kept and payments, if forwarded by mail, should be accompanied with a statement of the amount enclosed, the subscriptions which the remittance pays and the residence of the subscriber or subscribers to the fund. No payments should be tendered elsewhere, as no one has authority to give receipts now but the official collector, Mr. Bowditch. Payments should come in at a goodly pace now. During the first eight days of July nearly \$5,000 has been received.

State Examinations for Stenographer.

During the months of July and August there will be open competitive examinations for stenographer and typewriter copist, male and female, in the public service. They will be held at various dates at selected cities of the state by the State Civil Service commission. All persons interested are asked to write to the State Civil Service commission at Albany for circular and further information.

A Plan Worth Imitating.

Ruth Belle VanBuren of 9 Nehawka place was two years old on the Fourth of July and her father, James VanBuren, very properly thought she was worthy of some gift alike commemorative of her own and the nation's birthday. Accordingly he bought for her 25 War Savings certificates, which at maturity will be cashed in at \$125.

Roman Art Lost.

The ancient Romans knew not how to make transparent glass free from flaws and bubbles, but they could make the most exquisite articles of this vitreous material, blood-red, crimson-red, and of every unquarable color—ventable gem stuff in glass, such as we know not how to imitate successfully today.

Sugar First Used in the East.

It is thought that sugar derived from cane was known in China and India as long ago as 4000 B. C. The sugar cane was originally native to those countries and in the early middle ages cane sugar was brought to Europe by traders from the Indies. Europeans called it "honey made from reeds."

ATTY. WOHLLEBEN'S GARDEN.

Counselor Dons Palm Beach Suit to Indicate Warm Weather.

The man who turns electric lights on in his henhouses at 3 a. m. daily to get the fowls active early and force the production of eggs was entirely eclipsed yesterday by Attorney George Wohlleben who donned a Palm Beach suit at the risk of his life and went to his garden plot at East End during the afternoon to encourage his vegetables and convince them that the heated term has finally arrived and they should be putting forth their best efforts to grow. Judging from the appearance of the garden, which is a real war garden on vacant lots that are so stony that their every appearance would encourage a less experienced gardener and that were formerly nothing but weeds and brush, the Attorney's methods must be effective. For the wealth of garden products there, all of which are looking exceptionally thrifty for this season, is a surprise to most gardeners who inspect it. There is found nearly every variety of garden stuff one knows of and all looking thrifty and well. The garden is one of the best in the city, and the Attorney evidently knows a thing or two about how to grow a garden and under adverse conditions.

TAKE DESERTERS AWAY.

British Naval Officers Arrive Here to Take Two Men AWAY.

Robert A. V. Butler and Joan Duncan, each 22 years old, self-confessed deserters from the British navy, arrived here early Friday morning by the police will be taken to an Atlantic port today preparatory to being sent to England for trial. Chief Petty Officer W. H. Burton and Seaman R. D. Colby and David J. Grey, of the English navy, arrived in the city yesterday for the prisoners.

According to Officer Burton, the men will be put aboard a British ship tonight and sent to England. The officer refused to say what punishment will be meted out to the men. From former cases of this kind, however, it is probable the deserters will be given 90 days imprisonment and then drafted into the army and sent into the front line trenches without relief for the first three weeks. Ordinarily, a soldier goes into the line for three days and then is taken out.

Cooperstown's Bright Daily.

Summer would not be summer at the county seat without the daily appearance during July and August of the Glimmerglass, the breezy chronicle of life at the county seat which is sent forth from the Freeman's Journal office. Promptly with the opening of the month the Glimmerglass appeared last week, and citizens, summer visitors and all others interested in Cooperstown in summer welcome its return.

Waterville Hop Market.

The hops have improved quite a bit since the recent severe wind and rain storms yet the prospect for the coming crop is not very encouraging. It is estimated that not over 5,500 bales at the most will be harvested in this state, last year the number being over 7,000. Thus far no lice nor blue mold have appeared though last year both were active at this time. —[Times]

No Tidings About Douglas Washington.

No directions have been received from Baker, Louisiana, relative to the disposition to be made of the body of the colored man, Douglas Washington, who was killed Sunday afternoon on the D. & H. tracks near Emmons. The body is still at the McCrum undertaking rooms, and if word is not received in a day or two it will, doubtless, be buried here.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-lives" Point the Way to Quick Relief

"I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting."

When I had given up hope of ever being well again, a friend recommended "Fruit-a-lives" (or Fruit Liver Tablets) to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health.

Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.
